

TOWN OF PURCELLVILLE 3RD CITIZEN SURVEY 2015

EXECUTIVE SUMMARY

PURPOSE AND METHODOLOGY

In July 2015, the Town of Purcellville surveyed its citizens to obtain vital information and a snapshot of the overall level of satisfaction of the citizens of Purcellville. The Town, with assistance by Boy Scout Troops 39, 163, 711 and 969, distributed a survey letter with a unique number to all Town residences. The Town was broken down by 4 quadrants and split up among the 4 Boy Scout Troops. The quadrants were (1) North of Main Street, West of Hatcher, (2) North of Main Street, East of Hatcher, (3) South of Main Street, West of 20th Street, and (4) South of Main Street, East of 20th Street.

The unique survey number on the letter was established to authenticate the user as a Town resident and since the distribution was randomly spread out by the Boy Scouts, this kept the survey responses 100% anonymous. There were a total 370 responses or 14% of all 2600 households in the Town of Purcellville that were distributed to. There were 36 responses, or 10%, to question #1 that asked for the unique number that were inconsistent with the computer generated numbers. Even though these survey numbers were inconsistent, they were still included in the overall analysis. While the flyers were distributed to all households, wind or other factors may have led to citizens not obtaining a letter. There was also multiple Town issuances of press releases as well as newspaper articles that made Citizens aware of ways to access a survey letter in case they did not receive one or their letter was misplaced.

With this unique survey number, the Town residents accessed the survey located on the Town website on the main page identified in Red. Question 1 asked for the survey number that was printed on the letter. The rest of the survey was established with input from Town Council Members and the Mayor to solicit the overall rating and comments about Purcellville. The survey had questions about Town Services & Staff, Loudoun County Services, Taxes, Government & Elected Officials, General Town, and Website/Information.

Objectives of this Survey were to obtain direct citizen feedback because ultimately it is the citizens that we serve. The survey is a means to provide valuable feedback from citizens and to establish ways to improve our local government to ensure the citizens quality of life indicators as objectively as possible; evaluate satisfaction with services from the vantage point of those being served; determine reasons for dissatisfaction in order to guide Town action to improve services; obtain information about citizen satisfaction with the courtesy and helpfulness of Town employees and the appropriateness and timeliness of their responses to citizen requests; find out the usefulness of the Town's methods to communicate with citizens; and determine which services the citizens are most pleased with and why. The Town will conduct a similar survey periodically and use the information to develop objectives as well as on-going continuous improvement plans, and to measure future surveys using this one as a basis.

The Appendix includes the complete survey results and verbatim responses for open ended questions that were compiled using SurveyMonkey™.

Key Findings

Based on an analysis of the survey data, the following are key findings:

Respondents were asked to indicate how they rate Town services including Police, Administration (Town Manager's Office), Public Works, Public Utilities, Refuse and Waste Collection, Finance, and Community Development. The options presented for each service included 'Very Satisfied,' 'Satisfied,' 'Somewhat Concerned,' and 'Dissatisfied.'

When analyzing the graphs and answers, you also must take into account the numbers behind the percentages, eg. Loudoun County ambulance service got a 100% satisfactory rating, however only 1 citizen responded to that question. Please see Appendix for the raw data behind the percentages.

Q8 What is the most important thing the Town of Purcellville can do to improve your level of satisfaction?

Answered: 256 Skipped: 114

#	Responses	Date
1	Specifically , replace the light on country club drive at my residence at 731 as it is very dark for walking at night and is dangerous due to the ditch vs sidewalks that were put in.	8/2/2015 11:05 AM
2	Make the zoning less confusing.	8/1/2015 10:13 PM
3	Stop development of big projects which will destroy town character	8/1/2015 10:00 PM
4	Not certain.	8/1/2015 9:53 PM
5	Better notification of issues (e.g., zoning changes) that could affect our town. I've seen some notices that give very vague descriptions of items up for discussion at town council meeting. Flyers with detailed summary descriptions of items up for vote/discussion would help me determine if the matter is something I care about.	8/1/2015 4:17 PM
6	Having a legislative body that understands its role.	8/1/2015 3:22 PM
7	The town does not solicit nor care about the concerns of the average citizen. The pro-growth environment is contrary to why most of the citizens of the town moved here, yet concerns are ignored.	8/1/2015 1:40 PM
8	Duplicate an Ida Lee type recreation center with indoor facilities as well as outdoor.	8/1/2015 11:44 AM
9	I disagree with removing the historical buildings on N 21st and building that monstrosity. The citizens were not listened to, and the BAR was completely ignored.	8/1/2015 9:22 AM
10	Maintain the small town atmosphere through building codes and regulations such as limiting building height, keeping design in line with town character and history.	8/1/2015 9:16 AM
11	Develop a comprehensive plan for growth. Set the expectations and boundaries of what can be done so that there is not a battle between residents and developers every time a new project comes up.	7/31/2015 10:50 PM
12	First and foremost, listening to the residents. Second, letting residents know when big construction is going to bring major changes to the town. For snow removal, they need to clear the road and make the intersections clear, not just the width of the blade. Most of the side roads are small, and sometimes one car has to be off on the shoulder for the other car to pass. Have a foot of snow on each side of the road hinders the ability for cars to be able to pass (going up/down). Our road tends to have at least a food of snow on either side of the road that has not been cleared. It appears to be just the width of the blade when they went up, and back down. The foot of snow on the sides also includes where they have pushed. Also, some of the 4-way intersections don't allow for a car to be out of the path of the car that needs to turn into that street, because the road still has pushed snow on it, and gives room for 1 and a half cars. It drives me crazy because it just looks very unprofessional/lazy.	7/31/2015 2:44 PM
13	Treat CITIZENS with respect, all of them. Give CITIZENS priority based on what we say, ask, and suggestions that are made. Take CITIZENS seriously. There needs to be more oversight, checks and balances of decisions, especially land development and capital projects. The Planning Dept. seems to favor development when listening to Planning Commission meetings and talking to neighbors. And last, the conflicts of interest need to come to an end. The council needs to stand up and do or say something. Even the Board of Supervisors censored a board member for bad behaviors. Each council member is not their own vote, their vote is that of the more than 2500 households. The council should also never be allowed to show such disrespect to CITIZENS, as I have seen and read of this happening. It seems that if a CITIZEN speaks out against something, they are ignored, or criticized. We are glad there are some brave people willing to speak up for those of us too busy, or too afraid to say something. There is a real undertone of intimidation towards CITIZENS, and a warm red carpet welcome for non resident business owners and developers. You asked, and that is the perception. Seems that maybe some people need to be fired, and some should not be re-elected.	7/31/2015 2:21 PM
14	1) Not overbuild. 2) Not incur more debt 3) No more paying millions more for properties/buildings than they appraise for.	7/30/2015 3:16 PM
15	double taxes on town living and personal property	7/30/2015 12:40 PM

Purcellville Citizen Survey

16	Stop wasting tax dollars on short term gains and perks from developers	7/30/2015 10:40 AM
17	Attend to issues on 12th Street, ie water drainage, speeding, lack of pedestrian walk way	7/30/2015 12:53 AM
18	Keep event free	7/29/2015 7:30 PM
19	Keep Purcellville's small town feel and increase traffic patrol on A st between Blue Ridge and the 4 way stop west of the school.	7/28/2015 10:02 PM
20	Stop the police habit of detaining people even for a short term for questioning for "walking while Black" I have two mixed children (ages 20 and 21) who live in a city and then come here who are appalled that only in Purcellville have they EVER been stopped for "jaywalking". They both felt offended and believed they were being treated differently simply as they look different from the majority. Additionally, I have a neighbor, who is a black man in our predominately white neighborhood who tends to be stopped when walking in the neighborhood, or when driving for seemingly innocuous things (like a tail light that had been out that the auto body shop indicated would be OK if covered with a red tape for a temp repair yet the Purcellville police at one point stopped him for. There was no LEGAL Reason to stop him, and I personally think we as a community need to do better at not treating minorities differently than the white majority.) I think it obvious he is targeted as "suspicious" because of the cultural differences between his Black American urban sensibility and style and mannerisms which differ from the predominately white suburban neighborhood we are in. Diversity and improving fear of the unknown are very important to improve our community for all. The other issue I think we could improve is to allow the inclusion of sidewalks , bike lanes and other means of improving the "walking score" and safety for those who prefer (or economically have no other choice but) to walk or bike as a mode of transportation. I am dissapointed there has been dissent over putting in sidewalks on 690 S which would be a HUGE improvement as people who live and actually work in service jobs in our town DO already walk there regularly. Lets be compassionate and make this community safer for them.	7/28/2015 12:43 PM
21	Strongly encourage pedestrians to use paths and sidewalks, rather than streets. There is a particular problem on 20th street between Fireman's Field and A Street, and on A between 20th and Maple; too many people walking in the road when there are perfectly good paved paths and sidewalks available within feet of where they're walking.	7/28/2015 8:44 AM
22	TOWN PLANNING MORE PARK/GREEN DON	7/28/2015 8:38 AM
23	Lower taxes and water/sewer rates. They are out of control compared to other Virginia cities!!	7/27/2015 2:58 PM
24	Reduce the water bill! The cost of using the town water has increased too much lately!	7/27/2015 1:15 PM
25	Attract new businesses to the community and allow many families to spend their money here in the community instead of Leesburg, Ashburn etc.	7/26/2015 4:32 PM
26	Left hand turn signals from Maple to the main drag from both directions (at the 7-11 and other places). Stop building, there is too much traffic on our small roads. More trees in our parks for shade. We need a dog park.	7/26/2015 2:32 PM
27	Put citizens first and listen to us, we are the reason they have a job. But any time I've dealt with town hall it never seems that way.	7/25/2015 8:27 PM
28	Slow overdevelopment!	7/24/2015 8:33 PM
29	Better informing of town meeting/council agendas prior to meetings	7/24/2015 8:14 PM
30	Restrain development to control congestion because the town can't handle it - nor do we want it to	7/24/2015 2:35 PM
31	stop developing!!!!	7/24/2015 2:33 PM
32	Continue slow growth policy.	7/24/2015 11:57 AM
33	keep out big box stores and limit pre-fab builder home developments and maintain small town feel.	7/23/2015 6:29 PM
34	keep doing the great job	7/23/2015 10:34 AM
35	Water & Sewer rates have us really concerned. Also side walks on side streets	7/21/2015 4:19 PM
36	Improve the Town's culture, heritage and downtown area for growing families that want to raise their families in a 'small town' culture. Make Purvellville unique and entice new businesses from small business owners that embrace this mindset. Keep 'Chain' restaurants and businesses out.	7/21/2015 10:10 AM
37	Lower sewer and water bill and Firemans Field tax Better planning by asking us and not developers what we want	7/20/2015 9:35 PM

Purcellville Citizen Survey

38	The water rates are too high. What can be done to relieve the burden on the tax payers. I like the idea of selling water to private companies to generate revenue. Perhaps we can sell some water to smaller surrounding towns. The cost of water is extremely high. Don't raise the rates, leverage your resources to generate income.	7/20/2015 1:33 PM
39	Improve the quality of the water and reduce the cost. The water bills are too high.	7/20/2015 12:04 AM
40	Keep growth under control	7/19/2015 8:50 AM
41	approve a pool and a pavilion in the Village Case neighborhood that can be utilized by the entire town.	7/18/2015 3:57 PM
42	I've been asking for years to have a bus stop Cover in front of the Giant store on rte 7. This stop in frequently used. I talked to Mr Lazro and Mr Lour in the passW	7/18/2015 12:53 PM
43	Better forms of communication that people can actually get to and have time to read. The Facebook page would be a GREAT way to be sure residents are seeing updates and information about the town, rather than having to actively seek out information	7/18/2015 12:26 PM
44	Blue recycling bins and strong winds cause trash to blow, since trucks come late afternoon. Please replace all with green rolling bins with lids.	7/18/2015 11:01 AM
45	My biggest issue with living in Purcellville is the water...very expensive & there is a film on it when I make tea. Not sure what causes that.	7/18/2015 9:50 AM
46	reevaluate the sur charges on sewer and water	7/17/2015 3:06 PM
47	make the police follow the rules - stop speeding through town - stop giving nuisance tickets - selectively enforcing the law	7/17/2015 8:10 AM
48	Make sure those driving on Main Street are obeying the 25 mph speed limit and either add a sidewalk on the north side of main street between 28th and 31st or add a cross walk at 31st Street and Main Street.	7/16/2015 4:03 PM
49	Control the water & sewer bill and town taxes	7/16/2015 3:21 PM
50	The water and sewer rates have always been ridiculous. When I discuss this with others in neighboring counties they are horrified. Frankly, every time I shower I feel like I have been in the pool the chlorine stench is so bad. I would give Purcellville a C rating with regards to water. There is no place for a comment to number nine. I don't attend the meetings because nothing ever gets accomplished. As soon as my kids graduate from Valley I'm gone.	7/16/2015 11:04 AM
51	I would love to see increased enforcement of the drivers that do not stop at the crossways on Main Street. I do not feel comfortable crossing the street with my young children.	7/16/2015 12:20 AM
52	Most departments do an exceptional job; the town maintenance department has lost some of its former standards of performance. Staffing in departments providing essential services (water, wastewater, maintenance and safety) should be at levels that are adequate to decrease overtime and reduced coverage.	7/15/2015 9:29 PM
53	Need bike path to Franklin Park. Finish sidewalks on Main Street to roundabout.	7/15/2015 9:20 PM
54	The one thing that the Town of Purcellville could do to improve my satisfaction is to all additional retail stores, i.e., Walmart. There are a multiple variety of restaurants, fast foods and grocery stores. I think having an affordable retail store would definitely create jobs and increase the revenue here in Purcellville.	7/15/2015 5:14 PM
55	Lower taxes, traffic improvement	7/15/2015 11:53 AM
56	Stop taxing long-term residents out of this town. Utilize funds from new businesses and special events to ease the tax burden.	7/15/2015 8:30 AM
57	I feel like we have no say in the future of the town. We believe that the future is in the hands of a few people on the town council (the "old" regime) and they are only interested in appeasing the developers. It's extremely unsettling and it really needs to turn around. Basically, I believe the average citizen should have a bigger say in the town via elections instead of town council decisions.	7/14/2015 6:56 PM
58	snow removal very satisfaction	7/14/2015 5:24 PM
59	More transparency from the new Mayor	7/14/2015 12:38 PM
60	lower water/sewer rates recycling pick ups often leave trash/recycling in containers	7/14/2015 10:50 AM
61	Lowering the price of water & sewer.	7/14/2015 10:49 AM
62	stop the development on main street	7/14/2015 10:19 AM

Purcellville Citizen Survey

63	Implement a designated PAINTED public crosswalk from the McDonalds, over Main Street, to the BBT Bank/Shopping complex area. Everyone crosses it, but at least this way the pedestrian flow will be focused on a dedicated path instead of between passing cars anywhere an opening is available.	7/13/2015 5:27 PM
64	Not spending funds are items that are not necessary. Council Chambers are unsatisfactory. Video screen cannot be seen by entire room. Room is kept way too cold. Elevator is inadequate.	7/13/2015 3:36 PM
65	Preserve the small town culture by being careful in how new development is handled	7/13/2015 1:59 PM
66	Lower taxation and rates	7/13/2015 12:33 PM
67	lower the water bills also ' have merchant come in that citizens can afford also speed enforcement also left turn signal light on south maple that cross main st	7/13/2015 9:41 AM
68	Keep listening to the residents with regard to new commercial development.	7/13/2015 9:24 AM
69	Improve traffic, including citizen knowledge of double turn lane on Main Street and continued education on traffic circle use. Install a left turn light on maple and main. More neighborhood playgrounds More sidewalks.	7/12/2015 8:01 PM
70	Divert the traffic from Main Street. Turning onto or off of Main Street is difficult during heavy volume hours. Slowing the traffic would help as well.	7/12/2015 2:12 PM
71	make a master land use plan and stick to it!	7/12/2015 1:20 PM
72	STOP THE DEVELOPERS WHO, WHEN GIVEN THE CHANCE, WILL FAIRFAX-IZE THIS BEAUTIFUL TOWN AND NOT LOOK BACK.	7/12/2015 12:33 PM
73	Listen more to residents then developers.	7/12/2015 11:23 AM
74	listen to the citizens	7/12/2015 11:02 AM
75	a little better communication	7/12/2015 10:16 AM
76	1--Updating the town website is a must both in interface design and compatibility with mobile/desktop. Impossible to find information and confusing. 2--Utilizing electronic communication such as running online video meetings to allow citizens to easily attend virtually the meetings that are being held and ask questions accordingly. 3--Communicating a roadmap (i.e. Comprehensive plan) of where we are and where we want to be in 5, 10, 20 year segments, so we have goals for how we will be financially solvent and build the town we want. 4--Centralize Communication for all changes that will or can occur. Many citizens such as our family find it difficult to know what is happening and why it is important to know what is happening. A centralized location such as a webpage with an archived log to record all actions, meeting and events with filters that is displayed in a clear and concise manner is needed. 5--Financially update the town citizens every 6 months with a balance sheet, income statement and cash flow, so we know where we are and how long it will take to lower our town debt. Additionally, to make available an itemized list would be helpful so we can categorize exactly where our tax dollars are being spent and recommend on possible reallocation of funds where needed. 6--Place significantly increasing high fines on land owners and developers who break the law in order to mitigate blatant abuse of town law. 7--Find a future cost effective plan, if possible, on lower the town costs for water and property/car taxes. 8--Lastly, improve the citizen concern process by assigning a ticket number to a citizen concern and placing notes for citizens to see where the process of the ticket is at, time to resolution and if there is any items needed from the citizen. The current process is abstract and impossible to follow. Additionally, customer service and communication is sorely lacking, but the heart of the matter seems to be in the right place sometimes.	7/11/2015 4:42 PM
77	Decrease in water and sewer rates - too high!	7/11/2015 3:57 PM
78	Stop spending so much on lawsuits.	7/11/2015 2:05 PM
79	The town needs to hold developers accountable for bond maintenance issues. The town seems to shrug its shoulders when the developer does not follow through on its legal commitments.	7/11/2015 9:38 AM

84	Think more about the residents of the Town and less about the developers! Appearance says most of the Town council and all of the Zoning Board have deep open pockets when it comes to developers, in particular certain developers. There is no reason this Town has to become another Leesburg. We did not move west, out of Sterling, to live in a overly developed, big box store, area. We came for the quaint, small town Purcellville was 12-15 yrs ago. Slow down the commercial development. Also, spearate the Town govt from the PBA! They are allowed to dictate much of what happens in town, much like the developers.	7/9/2015 10:35 PM
85	Slope the ditch you put in front of our house on 33rd so water does not stand and create a breeding area for mosquitos.	7/9/2015 5:12 PM
86	Some of the brick crosswalks around downtown need to be improved.	7/9/2015 4:57 PM
87	Support the Vineland Square project on 21st Street. The existing buildings are neither attractive nor "historically valuable," and Purcellville could use some additional housing and retail options (a clothing store, for example). Also, the plaza could not only serve as a great gathering place for both residents and visitors, but also provide additional space for special events.	7/9/2015 3:32 PM

91	Reduce Water Costs and taxes.	7/8/2015 9:23 PM
92	Stick to the process, guidelines, statues and ordinances that the citizens have to abide by, e.g. zoning board granting exception on 21st street project.	7/8/2015 4:35 PM
93	Lower our water bills. The amount people pay for water in our neighborhood for the different homes is so inconsistent. It doesn't make sense. We've asked to have this resolved and investigated several times. It's ridiculous.	7/8/2015 4:05 PM
94	Address sidewalk maintenance and clean up town streets of debris in curbs, including grass clippings	7/8/2015 4:04 PM
95	taxes are going up and up and we aren't seeing quality of life improving. Adding unwanted hotel, low income apartments and loud obnoxious sport center is not my idea of a "nice town". Where is the dog park, play ground for kids or athletic/kids play area that a whole family can enjoy? think of the people that live here and pay taxes here, not the ones you want to bring in for a day. With that focus, surely you will have less residents pay taxes in the long run and more daily visitors.	7/8/2015 3:27 PM

112	reduce water and sewer rate!	7/6/2015 11:33 AM
113	The police department should be a full service agency or not have them at all. When you have a PD that attempts to justify its need by issuing tickets that most law enforcement agencies would not even stop someone for it is sad. People being stopped on Main Street for doing 6 mile above the limit at 11:00 pm or sitting in a neighborhood watching a 4 way stop at 10:00 pm and giving a ticket for a resident rolling through it. Stopping a citizen who has an expired inspection that is 2 days old & has an appointment with the inspection station but still giving the summons & telling the citizen to come to court. These are things that my neighbors have had happen to them.	7/6/2015 9:35 AM

117	Purcellville appears to be going the route of Reston and Ashville and allowing developers to come in to fundamentally change the character of our town. There is no need for major development in this town...we don't need or want big box stores, data centers, amusement parks or major dense housing projects. The town needs to clarify this to developers and not consider new construction without requiring public input and review.	7/5/2015 5:06 PM

144	Represent the People of the town, NOT special Interest individuals or groups that are only worried about their personal financial gain, regardless of the long term affects on the town and citizens. In this day and age, put more things up for vote by the citizens. The council can decide which things warrent a vote, and let the PEOPLE of the town decide through a vote instead of the council members deciding. I know that this is NOT THE WAY IT IS DONE, but my questions is WHY NOT CHANGE, With the technology today, there is no reason there cannot be a vote twice a year and let the PEOPLE decide what is done. Especially if it is changes to the Comprehensive Plan or the town's desire to spend any amount over \$100,000 or whatever that number might be.	7/1/2015 11:38 PM

157	1. SIDEWALKS along Main Street stretching west to Franklin Park. Connect the WEST side of town to the heart of town by building SAFE walk/bikeways--sidewalks or paths. This would alleviate some of the minivan/family traffic to Franklin Park. 2. Replacing the stupid, problematic, dangerous DITCHES in our very pedestrian-centered neighborhood (Country Club Hills/Country Club Drive) with SIDEWALKS so we don't have to walk in DITCHES on our daily walks.	7/1/2015 10:43 AM

167	Invest in technology and communicate openly. Put town financials online. When you send out a news release - don't send me an email with a link to a website that then links to a pdf I have to open on my phone - instead send me the information in an email or a text so i don't have to click thru so many times to get to it. Lower the meals tax on local restaurants. Lower the water rates. Ensure the police are trained in how to deal with mentally ill people in a non-lethal way.	7/1/2015 1:38 AM

171	Reduce taxes and reduce water/sewer rates.	6/30/2015 7:45 PM
172	Remember that a majority of citizens do NOT want big business and expansion. We LOVE our small town and want slow and careful development in our area - things like the proposed data center, new apartment complex, etc are contrary to protecting the schools and environment of our fantastic town and area. PLEASE consider with genuine care for the citizens - not the money - how our home with grow.	6/30/2015 7:36 PM
173	Do not annex the town limits to provide more houses/business. Leave Purcellville small - that is the reason why we moved here.	6/30/2015 7:15 PM
174	Limit development in town and keep the small town character of Purcellville.	6/30/2015 6:19 PM
175	Better education on water & sewer rate changes to allow us to understand where the dollars are going.	6/30/2015 6:18 PM
176	My family is very dissatisfied with the ongoing development of Purcellville. We believe that the projected developments for 32nd Street and 21st street will ruin the character and small town charm that Purcellville is currently clinging to and rapidly disappearing. We have attended town meetings and believe that the council members are bias in their opinions on the development of Purcellville. They are in favor of the developers and many have a conflict of interest in favor of the developers. In order to improve my level of satisfaction I would like timely notifications of town meetings as well as council and zoning/architectural meetings where we can make our voices heard. As of now I feel that our voices are falling on deaf ears.	6/30/2015 5:43 PM

181	While we are very happy with our new mayor, we are extremely unhappy with the Town Counsel. These individuals seem to be 'in the pocket' of builders who are doing their best to destroy the character of our town. There appears to be graft and/or corruption amongst some of the counsel members and conflicts of interest abound. We are all for things such as a 'face-lift' of the buildings on 21st Street and the rights of land-owners to sell their properties for development purposes. However, we are not in favor of 5 story buildings (21st Street) that are wholly inconsistent with the character of Old Town and the density, ill-conceived architecture and sham advertising proposed for rezoning of the Ball property at the west end of town.	6/30/2015 2:49 PM
182	Getting the water expense under control. Also with the development proposed in downtown, majority opinions on design and use were seemingly ignored. We don't need to look like every other new area...Reston Town Center...there is already one of those.	6/30/2015 2:38 PM
183	Continue to fight to keep Purcellville our small town. Don't let the developers win! Change the way the water is treated; it smell like chlorine! Lower the water bill, please!	6/30/2015 2:03 PM
184	THE TOWN NEEDS TO MAKE BETTER DECISIONS. WATER AND SEWER SHOULD NOT BE THIS EXPENSIVE. TOWN HALL AND FIREMAN'S FIELD SPENDING WERE EXCESSIVE. SPENDING MONEY AND THEN BILL THE TAXPAYER HAS TO STOP. CUT DEBT. REDUCE TAX BURDEN.	6/30/2015 1:45 PM
185	Lower water rates. How dare you. Families with children involved in athletics get hammered by water bills, having to clean uniforms, shower, etc. New residents continuing to pay for the lack of planning and maintenance done in the past. It's water, not liquid gold and it needs to stop. Also, the ridiculous Firemans field tax. You tax me for the field and then charge me to attend town events like the wind and food festival, which someone decided would be best held on what is traditionally the hottest time of the year. Didn't we learn anything from when it was held back in 2013 in the old town in sweltering heat? Business that are moving into town or moving around town have to meet certain architectural guidelines. (Dilzer for one) However, we can have a legitimate junk yard of old exercise machines smack in the middle of town as well as a gun shop that looks like a tenement. How is that fair to our new businesses?	6/30/2015 1:25 PM
186	Listen more to the people and less to the developers and the attorneys. Spend less tax money on projects that most members of the town do not support. Case in point - Tilley Entertainment fiasco.	6/30/2015 1:21 PM

194	maintenance of roads/sidewalks in neighborhoods that are not repaired are a problem. I live in Kingsbridge and our streets roads and sidewalks are cracked and show their age. Grass grows between the cracks in the pavement on sidestreets. Homeowners should not be responsible to maintaining the roads. Also, our drainage ditch is always full of debris and attracts mosquitoes. It should be monitored and regraded on a regular basis NOT when the area homeowners call to complain.	6/30/2015 8:51 AM

224	Keep taxes down	6/28/2015 10:31 PM
225	Provide a shuttle from Main Street to Franklin Park (especially in the summer, to the pool)!	6/28/2015 9:15 PM
226	Help to reduce our personal property taxes, as we get taxed twice by county and city, as well as our water rates.	6/28/2015 6:43 PM
227	medical services	6/28/2015 6:26 PM
228	Stop the development of Vineyard Square. This is a travesty that is not wanted by the citizens of Purcellville. It is proceeding without regard for laws requiring proper permits, is vastly out of scale for its location, and exists only to line the pockets of the developer and a few politicians. If put to a popular vote, probably 80% or more of Purcellville residents would say no. It stinks of corruption. Redevelopment of our downtown area is not a bad thing to do, if done right. Start over, obey the laws and rules, and get input from the public.	6/28/2015 6:12 PM

229	Provide a bit more information about the improvements planned for downtown. A more detailed description of the project, progress and completion date would be appreciated.	6/28/2015 5:56 PM
230	not allow development on 21st street as currently designed.	6/28/2015 4:00 PM
231	lower costs to live here. Water, taxes are out of control.	6/28/2015 3:33 PM
232	Town council doesn't need to agree on everything but honor each other's opinion. It feels aggressive towards each other.	6/28/2015 2:10 PM
233	I feel hopeful that things may now start to improve with the election of our new mayor and a couple of the new town council members. I would like to see more transparency from the Town government and BZA in regard to major development issues that could have an unfortunate impact on the small-town quality of life that the majority of citizens who call Purcellville home enjoy. I appreciate the new Mayor's efforts to come up with creative and innovative ways to bring in more income to the town without having to raise town taxes, water rates (which are still WAY to high for the average citizen to have to pay!), or promoting sizeable commercial development. I think he has some fantastic ideas, some of which are already starting to generate income, such as the sale of town water to outside entities. Let's all PLEASE work together to keep the small-town atmosphere that make Purcellville a special place in the midst of this continuously over-developed and congested Northern Virginia area!!	6/28/2015 12:12 PM
234	Improve the Main/Maple intersection.	6/28/2015 9:41 AM
235	Keep the water costs down: Don't shrink back on dealing with overgrowth too fast in downtown;	6/28/2015 8:20 AM
236	disapprove new construction projects and stop with all the drama	6/27/2015 6:31 PM
237	How about a store (Wal-Mart, Target, etc) so we don't have to go to traffic chocked Leesburg.	6/27/2015 2:09 PM
238	stop the building of residents and commercial facilities that use what little water this town has available. Leave historic old town as is. Do not tear down our historic area to put up new unwanted buildings.	6/26/2015 6:59 PM
239	Add a couple more traffic lights at certain intersections and streets.	6/26/2015 1:41 PM
240	reduce tax and better open government session	6/25/2015 10:10 PM
241	Lower the cost of water.	6/24/2015 9:30 PM
242	Build a skateboard park. I believe it could be self-sufficient through user fees. My kids would use it regularly.	6/24/2015 3:01 PM
243	Reduce the water bill	6/24/2015 12:05 PM
244	I appreciate the police presence in Purcellville. I believe it has helped in many ways and I am very grateful for them. But the lights on the new vehicles are extremely obnoxious and distracting. I believe they are dangerous and blinding to people driving by them.	6/24/2015 11:08 AM
245	1. Permit the opening of a store like Target. 2. Encourage more restaurants like Panera Bread. 3. Install a Left Turn signal at Main and Maple.	6/23/2015 6:39 PM
246	Do not allow any more fast food restaurants in town, or gun stores.	6/23/2015 6:26 PM
247	Better communication. I miss the announcement board on Main St. Water bills upcoming events, etc.	6/23/2015 1:15 PM
248	1) Remove prepared food tax or provide discounts for local residents 2) Water and sewage rates are outrageous - provide water to other municipalities in order to spread expenditures	6/23/2015 1:00 PM
249	Stop the destruction of 21st. Keep Purcellville quaint!!!	6/23/2015 12:15 PM
250	Reduce exorbitant water rates	6/23/2015 12:13 PM
251	Lower water rates	6/23/2015 12:12 PM
252	Correct the drainage proble across my property. I live next to blue ridge middle school and the pond overflows up to 1 foot level across my property to move on to city maintained drainage. My acre is unuseable but is valued at 100K it is worth less than 0 because of the issues I face with no help from city, county and Scholl that surround my property inside the city limits. 800 South 15th Street	6/23/2015 11:40 AM
253	Reduce spending and reduce water/sewer taxes	6/23/2015 11:40 AM

Purcellville Citizen Survey

256	<p>Twenty-five years ago, I moved to Purcellville from Fairfax because I had a co-worker at my work location in Fairfax who lived here, and he always talked about the fantastic community and small-town feel of Purcellville and said it was worth the substantial commute to & from work to live in such a place. I have LOVED living here and could not have chosen a better place to raise my son (who is now 19). It has been worth the long commute to the various locations of my full-time job, which was originally Fairfax, then Reston, and now McLean. It has even been worth the 15 minute drive to/from Leesburg if I needed something at one of the "big box stores", because I knew I was always coming back home to my fantastic, safe and peaceful small town of Purcellville! Although I know development/"progress?" cannot be avoided in any small town, I have become extremely concerned over the past several years about the rapid, large-scale development of some areas of Purcellville (and the very unfortunate developer demands for zoning changes that are apparently on the horizon). I fear that soon, my main reasons for moving to and remaining in Purcellville - the unique small town feel, the very low crime rate, the unique and wonderful small local businesses (Nichols Hardware, Crooked Run Orchard, fabulous antique and consignment shops) - will be destroyed due to the extensive planned development (both commercial & residential) of this town. Then I will have to re-think continuing to live here, as there will be nothing to justify a 1 1/2 hour each way commute to work every day, just to come home to another "Leesburg", "Ashburn" or "Sterling". Once the small-town uniqueness of Purcellville is destroyed, it will be gone forever, and this is the only thing that truly makes this town special and a favorable place to live.</p>	6/28/2015 12:12 PM

7	There is a real disconnection of how hard facts are put out to the public. If it were not for the Blue ridge newspaper I would not even know about most things. It seems I would miss it until after votes happened. Decisions are made too quickling with little to know real long term analysis. I must comment on the outrageous statement sent out by the town manager about the newspaper regarding the officer that fell asleep. Shameful. I asked the woman who's car was totaled and the officer did not get a ticket? And the poor single mom had to purchase a newer car to be comparable to her total loss. Shame on the town. The town must take responsibility when something is done wrong and costs the residents. How much are the 3 tanks just discovered in the ground going to cost us?	7/31/2015 2:21 PM
8	The local papers are great. But I think they omit some things (for political reasons)	7/30/2015 3:16 PM

#	Responses	Date
1	Smart growth	8/2/2015 11:11 AM
2	Too many residences and not enough of new business to off set the costs of running the town.	8/2/2015 11:05 AM
3	Dealing with growth.	8/1/2015 10:13 PM
4	Incursion of developers, loss of town character	8/1/2015 10:00 PM
5	Citizens need to adjust to change.	8/1/2015 9:53 PM
6	More people are coming to live hear and we need to think about putting more stores, and restaurants close by. A movie theatre would be nice.	8/1/2015 4:39 PM
7	Supporting growth while still keeping a small town vibe.	8/1/2015 4:17 PM
8	Debt especially in the Sewer Fund.	8/1/2015 3:22 PM
9	town council out of touch from it's citizens.	8/1/2015 1:40 PM
10	Replacing farmland with more housing and commercial developments. Residents need to appreciate what they have here. The Los Angelization of the DC area has gone along enough. Western Loudoun could be providing healthy food for the area.	8/1/2015 11:44 AM
11	We don't need the Northern connector route, but rather an interchange at RT 690 at 7. We should turn N 21st street into a walking mall and push the "Monstrosity" to north of the train station to the industrial park. I think the water bill rates are too high.	8/1/2015 9:22 AM
12	Commercial development not in character with the town	8/1/2015 9:16 AM
13	Growth and development. I feel the developers still have too much leeway. It is slowly getting better. Ten - twenty years ago, developers got away with murder and the town, both Town Council and Town staff, enabled them.	7/31/2015 10:50 PM
14	Keeping retail here. The price of rent is too high for most places to stay in business. Two many of the same stores. Need more variety and more attractions for the youth.	7/31/2015 2:44 PM
15	Integrity, honesty, full disclosure, and conflicts of interest are an important place to start. The growth beyond our current borders is wrong and even to annex, it must be at very low density. There is too much happening, and so it is only mediocre. There must be reforms to bring excellence in the performance and expenditure standards of how the town is run. Being a small town is no excuse, the town attempts too many things and does not do them efficiently. But it will take real analysis with resident involvement to change things. Efficiency review/audit, financial review/audit, Risks and Threats review/audit. Trust is earned, the town must do better with what we already have. Protecting and preservation is lacking in the rules and codes that affect development. We are missing the mark on many historic, environment, and fiscal issues.	7/31/2015 2:21 PM
16	Development across from Nichols Hardware will be out of character. Too touristy. But what I say doesn't matter because it seems it's going to go through and tower over the surrounding structures anyway.	7/30/2015 3:16 PM
17	Anonymous, sterile, ugly developments; Concrete and ugly architecture paving over green space	7/30/2015 10:40 AM
18	Interest groups	7/30/2015 12:53 AM
19	Decisions about growth	7/29/2015 7:30 PM
20	Developers out to make Purcellville more like Ashburn and South Riding. We need to keep the small town feel!	7/28/2015 10:02 PM
21	Fear of Change Planned development of 21st street area to me looks to be responsible and well thought at, as well as visually appealing which I think will improve the draw of Purcellville as a tourist location for at least day trips, but perhaps other visitors. We have few events like the Babe Ruth World Series which would be nice to keep here, but are lacking at least on decent hotel space which I think is an addition Purcellville really would benefit from. There is however such resistance to growth of any sort.	7/28/2015 12:43 PM

42	High Debt and AAA rating that says we can borrow more what a joke. High water and sewer bills High Taxes - Meals and Property Poor planning - developer dream citizens nightmare	7/20/2015 9:35 PM
43	Water/Sewer rates are too high. We are in jeopardy of adding new development that don't fit in with the style and vision of our community. I am concerned that we are changing zoning uses without fully reviewing the comprehensive plan. What were the outcomes of the 2011 review of the plan? I have not seen anything documented. Thus, I believe a complete review of the Comprehensive plan was not done since 2006. The town council seems divided. If the Mayor has a newsletter, why do we also need a newsletter from another council member? This divisive tactic comes across as if there is a group of council members that refuse to accept that there are new members with vastly different ideas than that of the previous council. Thus, the main concern of this group is to make sure that nothing happens with hopes that the new members will get blamed for lack of momentum. It is a shame that the concerns of the people are not in the forefront of their minds.	7/20/2015 1:33 PM

126	Purcellville appears to be going the route of Reston and Ashville and allowing developers to come in to fundamentally change the character of our town. 145	managing growth I appreciate the town police, however we citizens don't need to be annoyed about tickets and associated fines for minor things that the police don't obey. Why ticket and fine immediately in cul-de-sacs for parking on wrong side of street in front of our own homes? Can they provide a warning first? We/others didn't know the rule but we are fined almost immediately and upon first incident. We don't mind the blatant speeding violations that police may or may not provide unnecessary warnings for - fine THEM without warnings. But bothering innocent citizens and visitors in town who don't know the rule? Then to see the Purcellville police always parking on the wrong side of the road at their own facilities really makes us upset.	7/3/2015 10:54 AM

239	Please watch the water supply. How to develop over the next 5-10 years	6/28/2015 2:10 PM
240	As I'm sure you can tell from reading my other answers above, I am extremely concerned about the development already approved to take place in the Town, especially the extremely inappropriate 5-6 story "Vineyard Square" monstrosity planned for Old Town Purcellville (which I believe will ultimately destroy the unique and authentic historical character of this wonderful part of town and drive the existing small business owners out of business). I am in agreement with my neighbors who say that if they wanted to live in an environment akin to Reston Town Center, Fairfax Corners, etc., they would not have moved to Purcellville. I believe there are other ways to bring in revenue (and maintain the AAA Bond rating that seems so important to the Town) without approving and encouraging large scale and high density development, any of which will be done AT THE EXPENSE OF THE EXISTING UNIQUE QUALITY OF LIFE ENJOYED BY THE MAJORITY OF THE TOWN RESIDENTS. I cannot emphasize this point enough - once large scale development takes priority over the small-town quality and style of life that the majority of residents came to Purcellville for in the first place, then Purcellville will become a much less desirable place to call home and I don't believe that Purcellville will then be able to honestly make the claim that its citizens come first. That being said, I sincerely appreciate this survey and the Town's interest in hearing what citizens have to say (outside of the open Town Council meetings) - thank you for doing this survey! One other big concern . . . because of the very successful revitalization of the Old Town "downtown" area, parking has become a problem now, even after the construction of the sizeable free parking lot located between 21st & 23rd Street. Would the Town consider constructing a parking garage if development of the downtown area (and this unfortunate Vineyard Square) continues? There is honestly little or no parking available, on weekends especially, due to the volume of visitors to the downtown area, to Magnolia's and all of the cyclists that park in Purcellville to use the W&OD trail or to ride their bicycles on the roadways here.	6/28/2015 12:12 PM

And for so long it had been just information just thrown into a website. how about having residents come together and do research, and make real suggestions about how it could be improved. there are plenty of cities and towns that do a much better job. why re-invent the wheel? research others that are already doing it better and capture the resource. the town staff is not qualified to make such decisions, besides most of them do not live here anyway, and those that do, well some have their own agenda.	7/31/2015 2:21 PM

Q22 What do you think is the best way to fund new projects and services for the Town?

Answered: 176 Skipped: 194

#	Responses	Date
1	Bond issuance	8/2/2015 11:11 AM
2	new business encouragement.	8/2/2015 11:05 AM
3	Partial self funding.	8/1/2015 10:13 PM
4	Not an economist	8/1/2015 10:00 PM
5	Depends on how critical is the project or service.	8/1/2015 9:53 PM
6	Bake sales! Just kidding, I'm not a finance person.	8/1/2015 4:17 PM
7	If the project is truly warranted, I am for raising fees and taxes to pay for it. Stop adding unneeded services and events that do not benefit the citizens and are aimed at out of town visitors.	8/1/2015 3:22 PM
8	this question is too open ended to provide a specific answer, each has to be looked at on a case by case basis.	8/1/2015 1:40 PM
9	Depends on the project or service. I think developers have gotten away for too long to not fund recreational parks in this area or playgrounds for schools.	8/1/2015 11:44 AM
10	Manage the funds to meet the priorities. Do not add taxes. Redistribute the funds to meet important needs. Defund what is not a priority.	8/1/2015 9:16 AM
11	Bonds. The residents should vote on issuing bonds to ensure it is what the community wants. Why do we have a water system that is 3 times larger than we need?	7/31/2015 10:50 PM
12	Begin by becoming more efficient with the money already collected. Stop making things by right. Make the developers that want us to give them the sun moon and stars, pay for their impacts. Why is the council, planning commission, and town so weak, and continues to give away the farm! The council has allowed perception and real actions to be conveyed to developers that they can do whatever they want. And here they keep coming with ridiculously outrageous over the top massive development at 10 times the by right density.	7/31/2015 2:21 PM
13	Bonds. I think they would sell well unless interest rates start going up fast.	7/30/2015 3:16 PM
14	Stop the need for new services; stop dense development. These new and proposed developments are poorly built, poorly designed and will be very expensive to maintain.	7/30/2015 10:40 AM

20	Attract new businesses to the community and reduce the policy (ordinances) restrictions placed on businesses which prevents business from opening in the Purcellville.	7/26/2015 4:32 PM
21	Perhaps vote on what tax dollars are spent on and not spent on.	7/24/2015 8:33 PM
22	Cut budget elsewhere, add non-tax sources of revenue	7/24/2015 8:14 PM
23	Wait until Firemans Field is paid off and then use those dollars to fund them.	7/24/2015 2:35 PM
24	it depends on what they are.	7/24/2015 2:33 PM

32	Don't Know	7/18/2015 12:53 PM
33	If people want to come to this great little town to start new projects, then those people need to figure out the funding while also compensating the town for allowing them to build here. No one wants to see Purcellville turn into Reston.	7/18/2015 12:26 PM

38	Fund raiser events	7/16/2015 8:20 AM
39	User fees	7/16/2015 7:45 AM
40	All growth should support new projects and services; we all bear the costs for services received, and it is reasonable to expect that the cost of living will increase; however, large increases created by new development should be shouldered primarily by that development	7/15/2015 9:29 PM
41	reduce spending	7/15/2015 9:20 PM
42	Lower the capital improvements (example: police sports car)	7/15/2015 11:53 AM

46	stop growing government	7/14/2015 10:19 AM
47	taxes	7/13/2015 10:36 PM
48	it depends on the project/service, who will benefit, how long it will deliver benefits, etc.	7/13/2015 1:59 PM
49	business revenue	7/13/2015 12:33 PM
50	Not sure	7/13/2015 9:24 AM
51	You spend way too much money on shinny pamphlets and flyers! Use this to fund projects that are useful to youth activity	7/12/2015 1:20 PM
52	Seek state/federal sources before issuing yet more bonds. Taxation as a last resort	7/12/2015 12:33 PM
53	current taxes	7/12/2015 10:16 AM
54	Develop a plan around the culture of the town. Small town feel, farming community culture, which I would recommend grow a green town. Best way to is concentrated monies, who does the most with little---technology. Get technology jobs here and convert the town into a green town which will fund the town for decades allowing green projects and latitude on new citizen/town initiatives made possible--meaning we have a lot more options. The best bait for this approach--higher education satellite campus.	7/11/2015 4:42 PM

76	Sponsorships are not a bad idea. Selling water is not a bad idea.	7/7/2015 2:44 PM
77	Embrace tourism. Everyone is always concerned with building more corporate and commercial tax revenue and how long commutes are to work. I don't want to live where I work. Purcellville is a suburb for a reason and it has been successful because it is a suburb. If I wanted to live near commercial/corporate areas/my employer, I would move to Reston. It is already obvious that we could be a major tourist destination for wineries, breweries, restaurants, distilleries, tubing/rafting, biking, hiking. An "oasis" from the city for people who live there and are visiting there. Think "Napa Valley" or "Sausalito, CA." This type of industry keeps the growth under control, is a "premium" industry in terms of reputation, and provides great revenue.	7/7/2015 10:29 AM

94	Sell/share town assets.	7/5/2015 10:48 AM
95	By NOT funding them	7/4/2015 6:57 PM
96	Downtown tourist tax (small price to pay--I really do not think town people care about this)--we should have huge tourism traffic especially with the changes to old town--Old Town Pville will become a DESTINATION instead of a sidethought--People will pay for value. Right now you have a bunch of delapidated buildings that NO ONE wants to visit and no one wants to bring guests---keep Nichols and that side of the road--make the old town area a place we can gather and spend our money in town.	7/4/2015 11:14 AM

110	Reduce debt servicing and eliminate special tax relief for certain businesses	7/1/2015 5:38 PM
111	Share the burden. Cut back on beautification of your own property. employ part time residents to help those who can't do their own maintainance.	7/1/2015 4:28 PM
112	Infrastructure--a reasonable, dedicated tax Events- run them all like a business and make them generate income	7/1/2015 3:18 PM
113	hate to say it but taxes are about the only way.	7/1/2015 2:01 PM
114	Make sure businesses are paying fair share of taxes, dont place it all on reidents. Attract more temporary events which have less cost to residents but provide revenue. eg: Wine Festival.	7/1/2015 10:49 AM
115	Look for ways to CUT expenses or programs that are not needed or useful anymore, or not working (based on data). (Govts often seem to push growth without assessing the costs/value/viability of existing services.). Consider TAXING based on income: tax the rich, not the poor or middle class.	7/1/2015 10:43 AM
116	Tax exempt donations from businesses and residents. Raising property taxes will tend to chase residence out of town. Or, drop off some current spending projects and replace them with a newer and better one. Live within our budget.	7/1/2015 10:37 AM

124	cut back on new projects and services	6/30/2015 9:32 PM
125	Developers not the taxpayer.	6/30/2015 7:45 PM
126	Better tax money management - we pay huge water bills, an in-town tax of 5% on everything, car taxes, extra property taxes... what is being done with it all that funding is even an issue? Where does all that money go?	6/30/2015 7:36 PM

129	Host events at Fireman's Field; sell excess water from town wells;	6/30/2015 2:49 PM
130	Is our current tax rate not enough? What are the new projects that need more funding?	6/30/2015 2:38 PM
131	Perhaps older projects should be defunded to make way for new ones.	6/30/2015 2:03 PM
132	NO MORE SPECIAL TAX DISTRICTS - FIREMANS FIELD TAX TO PAY FOR UPDATES WAS DONE AFTER THE FACT. NEVER HEARD ABOUT IT UNTIL IT SHOWED UP ON MY TAX BILL. NEW TOWN HALL WAS THE BIGGEST SWEETHEART DEAL EVER. LAZARO SHOULD GO TO JAIL FOR OVERPAYING PBC SO MUCH OVER MARKET VALUE FOR A BUILDING THAT IS STILL UNHEALTHY (WATER ISSUES IN THE BASEMENT) FOR ALL THE MONEY WE SPENT.	6/30/2015 1:45 PM
133	Well, let's see. You have Town Tax, Town Personal Property, town property, meals tax, fireman's field tax, exorbitant water and sewer rates among others. How could you possibly need more money.	6/30/2015 1:25 PM
134	I think new projects should be shelved until we figure out what we are doing with those projects that are already in the mill. If we don't have the funds we shouldn't consider the projects until we are reasonably out of debt. Otherwise, debts will keep going up and taxes will go up to pay them.	6/30/2015 1:21 PM

138	It is not feasible to think you can continue to provide services for an increasing number of residents and not raise taxes. Tax increases are inevitable and something we will need to just accept.	6/30/2015 8:45 AM
139	Meals tax. Most of the people that eat in our town are from outside of the town but use our roadways and facilities that town people pay for.	6/30/2015 8:06 AM
140	increase taxes for private educational institutions	6/29/2015 11:13 PM
141	Use current revenue. Think outside the box. Charge user fees at Fireman's Field and other town facilities, and stop funding unnecessary items, such as the annual "sports grant" - sure its a nice thing to offer each year, but using town taxes is not the way to fund it.	6/29/2015 11:08 PM
142	Unsure	6/29/2015 10:07 PM

145	Since moving here we have two police drive by and light up my African-American husband in our neighborhood. We live in a cul-de-sac in the middle of a neighborhood, obviously they have some extra time on their hands if they have time to hunt our house out twice and then shine a spotlight on my husband while he works in the gargage on one occasion, and while he carried boxes on another. Although we have never seen this done to anyone else, so I am not sure if this normal or not since we just moved here 8 months ago.	6/29/2015 8:37 PM

15	First of all, if you are attempting to garner complaints so you can tear down the historic house purchased and sitting empty, nice try. It was the town hall relocation and the absurd design of the parking lot that took parking spaces. Bad judgement, bad design, excessive cost. Tax dollars-wasted!	7/31/2015 2:21 PM
