**MAINTENANCE ACTIVITY: MAIN STREET VILLAGE GROUNDWATER FILTER BUILDING
220 McDANIEL DRIVE**

PURCELLVILLE, Va. October 6, 2022 — On Thursday, October 13th, 2022, the Town of Purcellville will be changing out the carbon at the Main Street Village Groundwater Filter Building, located at 220 McDaniel Drive. This work is part of the annual filter maintenance, and will occur from 8 AM to mid-afternoon. A large vacuum truck will be at the site and will produce noise during the work; a hose will cross the roadway from hydrant to the filter building.

The Town of Purcellville, Virginia

“Purcellville-your small Town, where history and progress intersect and people prosper,” is an award-winning town of approximately 10,000 residents located in Loudoun County, approximately 50 miles west of Washington, DC. Having received the 2021 Virginia Municipal League Innovation Award for Environmental Sustainability and in years past, the prestigious Siemens Sustainability Award for Small Communities, Purcellville continues to be honored for innovation and green initiatives. The Town most recently received the Tree City USA Award for the 14th consecutive year. The Town was reaffirmed as a AAA rated community by S&P Global Ratings, the highest credit rating possible, and was ranked “Safest City” in Virginia in 2020. Once a stop along the W&OD rail line, which has been converted to a multi-use trail from Alexandria, VA to Purcellville, the Town has maintained its historic old-town feel through the restoration and maintenance of its many downtown structures, reflecting the Victorian architecture popular during the early 1900s. Today, Purcellville is the economic hub of western Loudoun County and a popular weekend destination for antiquing, equestrian activities, farmer’s markets, wineries, breweries, distilleries and restaurants.
