

# Town of Purcellville's Pedestrian Crosswalk Flag Pilot Program

- Remove a flag from the holder and wave the flag to signal to oncoming drivers.
- Look left, look right, and left again.
- Make eye contact with the driver of the vehicle. When the vehicle has come to a complete stop and it safe to, enter the crosswalk.
- Signal the flag to the left.
- Signal the flag to the right.
- Return the flag to the holder on the other side of the crosswalk .

Remember the flags are just a safety tool, pedestrians are reminded to look both ways, make eye contact with the driver and exercise caution before entering all crosswalks.
